Personal Statement:

My life revolves around my family, softball, and school, and these are my main priorities. I work hard in the classroom, to set myself up for success for the future and my career. I also work hard on and off the field, so that athletics can give me a path to college, and playing at the collegiate level. I learn to compete, how to endure difficult situations, work on my reaction to failure, face diversity, and so many other life lessons through the game of softball. I'm grateful for everything and everyone that has helped me in the right direction in life, and hope that one day, my dream of playing softball on some of the biggest stages in the world with my family and friends by my side, one day comes true. I push myself and will work as hard as possible to reach my dreams.
