Personal Statement:

I started playing softball when I was 5 years old, and loved it ever since. I've been fortunate to watch and learn from my older sister's work ethic and successes in both softball and school, and that makes me want to push even harder to get to where she is. I enjoy putting in the extra work, not only in softball but also in school. I look forward to playing in high school and continuing my academic and softball career in college.
