Personal Statement:

Competitive! I think this is the best word to describe me as a student and as an athlete. In the classroom, I enjoy taking AP and Honors classes. I strive to learn as much as I can and to get an A grade in each and every class. On the field, I don't need anyone to push me to work hard. I love the game of softball so it comes natural to want to excel. I started playing softball as a Swinging Babe on a 6U tee ball team and ten years later, I've never stopped playing and would love nothing more than to keep playing and make an impact at the college level. What I bring to any team is a strong work ethic and a love for the game while at the same time being a supportive and positive teammate. Being on a college level team with knowledgeable coaches, building relationships with teammates that will last a lifetime and winning a conference title while earning a 4-year degree would be a dream come true.
