Personal Statement: Since I was a little kid, I have always been held to and held myself to a high standard. From academic achievements, to my softball career I have always made it my goal to reach the highest level possible and push myself to do better in whatever it is that I am doing. I intend to continue learning and developing both mentally and physically as a person and a player, and I understand that the work I put in as well as the things that I do will determine how people treat me on and off of the field. Softball has provided me with a lot of amazing opportunities to grow and I plan on taking that knowledge with me not just through college, but throughout my life. The Softball community has provided me with so much and if I could play college softball and one day be able to give back to the community that gave me those opportunities, it would truly be an honor.
