Personal Statement

I began playing softball at five years old. I loved playing all positions but catcher and outfield quickly became my favorites. I love being able to be in charge of the field as a catcher. One of the other highlights of being a catcher is being able to be see different pitches as an offensive player not just as a defensive player. I have always enjoyed playing outfield because I show my speed and throwing strength. When COVID first started, I was in my first year of 16s and I decided to switch from a right hand hitter to a lefty. This gave me an opportunity to hit both right and left although now I only hit left. I became better at hitting lefty and have more hitting tools in my toolbox and can now power hit left when needed.
