Personal Statement:

I have been playing softball since the age of 6. The respect I have for the game challenges me to get better every year and during every game. My 10u and 12u season was so far the best seasons I had because it taught me more about the game by watching and learning through the whole process. With everything the game has taught me and all the hard work my goal is to play D1 softball and become a sports physical therapist.
