Personal Statement: Since the age of seven I have been very dedicated to playing softball and aspire to play at a collegiate level. I work hard in school and know that education is the path to my success in the future. Not only do I work hard at school, but I also work hard at crafting my softball skills by dedicating extra time to practicing at home, attend regular batting practices, and workout to improve strength and agility. I am very coachable and encourage my teammates when they struggle. Although I love the thrill of playing softball games, I also enjoy the other aspects of softball, like teamwork and traveling. Softball has also taught me many life skills such as time management, mental resilience, and relationship building. One of my other interests during middle school was running track where I received multiple 1st place awards for the 100yd dash and 4 by 100 relay races.
